

Basic Pneumatics

TOPICS COVERED

- 1) Production, processing and distribution of compressed air.
- 2) Various type of valves – 3/2, 5/2, 5/3, dual air pilot, single air pilot.
- 3) Various types of air cylinders
- 4) Interesting Pneumatic Components
- 5) Practical

Basic Electro Pneumatics

TOPICS COVERED

- 1) Basic electric theory.
- 2) Various type of solenoid valves – 3/2, 5/2, 5/3, single and double solenoid valve
- 3) Relays and function
- 4) Proximity Sensors
- 5) Practical
